FAMILY

Vizir and Hedra add refinement, finesse and colour to the range. They are characterized by an atypical hinge, a design element that not only catches the eye, but also serves as storage for technical parts inside the luminaire.

Next to black and white, the Vizir and Hedra are available in Gold Coloured and Black Bronze finishes, either polished or in faceted texture.

The faceted design of the Hedra captures and reflects the ambient light with an ever-changing look a result.

It is also the typical design element of the Hedra family, a series of pendant, spotlight and wall mounted luminaires, available as full LED solution or for retrofit bulbs.

**The collection was
inspired by a fascination
with point, line and surface;
key architectural elements.**

SUPERLOOP SHC MDL

Looking for maximum flexibility and prefer linear elements in your project design? If yes, the Superloop S H will meet your needs, both graphically and functional. Available in a square and rectangular shape, they can stand out on their own, in a parallel configuration or more eye-catching compositions.
